

PARTNERSHIP ANNOUNCEMENT

www.rapidviews.io

Rapid Views, a software editor that accelerates the deployment of BI software on SAP HANA, is pleased to announce its partnership with STMS Solutions, a SAP Gold Partner in France.

Rapid Views and STMS Solutions are dedicated to driving the adoption of SAP innovations and new technologies, particularly the new S/4HANA ERP.

This alliance of two innovative players in the SAP ecosystem will enable STMS Solutions' customers to save time in the implementation of their business intelligence project on SAP HANA landscape.

« We are proud to have partnered with STMS Solutions, a Gold partner and key player in the SAP ecosystem in France », said Jérôme TOCANNE, Director of Rapid Views. « Through this partnership, we will provide our Business Intelligence accelerator to STMS Solutions' customers who are migrating to SAP HANA. »

The transition to S/4HANA is a real challenge for STMS Solutions: *« Our customers are increasingly demanding solutions that bring value to their digital transformation to SAP S/4HANA. The solutions offered by Rapid Views enable us to manage an entire business intelligence project in a speedier and more effective way », said Sébastien FAURE, Managing Director of STMS Solutions.*

« We are delighted to partner with Rapid Views, their DNA is as focused as we are on innovation, it will allow us to better support our customers in the use of SAP HANA databases ».

The partnership was inaugurated with a joint BI Project on S/4HANA at Nexteam Group, an expert in precision mechanics and hard metal machining, who choose STMS Solutions and RapidViews for the implementation of their real-time decision-making reporting on their S/4HANA.
